VET VISITS

DATE	WHAT	GIVEN BY

Socialization and early experiences

DATE	WHAT	NOTES
25 March 2026	Sound work begun	Kitchen radio, then recorded gunshot at distance from five weeks, always with food.
2 April 2026	Out to the yard	Grass, straw, gravel and a steel grid.
8 April 2026	Met the older dogs	Two adult labradors and a terrier, supervised, in the barn.
14 April 2026	Retrieve introduced	Sock rolled two feet on the kitchen floor. Nothing formal.
18 April 2026	Water	A seed tray of warm water in the yard. Otter and Bramble sat in it.
22 April 2026	Visitors	Four adults and a child over the weekend.
29 April 2026	Lead, first time	Soft slip lead in the barn for five minutes.

Microchip and identification

MICROCHIP NUMBER 981098106654321

MAKE Avid

Chipped at seven weeks. The transfer form is in the folder — please complete it within 21 days, which is the law here.

Feeding

FOOD	AMOUNT	MEALS A DAY	NOTES
Skinner's Field & Trial Puppy	110 g	4	Soaked ten minutes in warm water.

He leaves here on four meals a day, 110 g a meal, soaked. Go to three meals at twelve weeks and two at six months.

Weigh the food, do not scoop it. A fat gundog puppy is a lame adult, and the single most useful thing you can do in his first year is keep him a shade leaner than feels right.

There is a fortnight of food in the bag. If you change it, take a week over it.

From the breeder

Isla had six on the ninth of March and every one of them has been handled every day since.

A few things I would ask. No stairs and no long walks before six months — five minutes of lead walking per month of age is the rule I follow, and he will be perfectly happy with it. Let him grow up slowly. The work can wait.

He is insured for the first four weeks and the paperwork is in this folder. Register the microchip transfer within 21 days; the form is behind this letter.

And if at any point in his life you cannot keep him, ring me. He comes back here. That does not expire.

— Marianne

Otter is the steady one. He was the last to come out of the box and the first to sit still for it.
